INTERNATIONAL SEARCH REPORT

International application No.
PCT/US 08/02392

Box	No.	I	Nucleotide and/or amino acid sequence(s) (Continuation of item1.b of the first sheet)		
1.		ith regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international search was ried out on the basis of:			
	a.	type o	f material a sequence listing table(s) related to the sequence listing		
	b.	forma	t of material on paper in electronic form		
	c.	time o	f filing/furnishing contained in the international application as filed filed together with the international application in electronic form furnished subsequently to this Authority for the purposes of search		
2.	\boxtimes	or f	ddition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed urnished, the required statements that the information in the subsequent or additional copies is identical to that in the lication as filed or does not go beyond the application as filed, as appropriate, were furnished.		
3.	Add	litional	comments:		

INTERNATIONAL SEARCH REPORT

International application No.
PCT/US 08/02392

Box No. II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)				
This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:				
1. Claims Nos.: because they relate to subject matter not required to be searched by this Authority, namely:				
2. Claims Nos.: 1-14, and 23-32 because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:				
Claims 1-14, 23-32 are unsearchable because no valid CRF was filed in response to the ISA/225 of 16 October 2008. The CRF filed on 17 November 2008 was defective and was not entered. Accordingly, the USPTO cannot supply a search for the sequences listed in this application.				
3. Claims Nos.: 14 because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).				
Box No. III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)				
This International Searching Authority found multiple inventions in this international application, as follows:				
1. As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.				
2. As all searchable claims could be searched without effort justifying additional fees, this Authority did not invite payment of additional fees.				
3. As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:				
4. No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:				
Remark on Protest The additional search fees were accompanied by the applicant's protest and, where applicable, the payment of a protest fee.				
The additional search fees were accompanied by the applicant's protest but the applicable protest fee was not paid within the time limit specified in the invitation.				
No protest accompanied the payment of additional search fees.
